PALCOHOL®

How to use this packet of
Palcohol:

Mix in this pouch: Use this pouch as your glass! Fill with six ounces of water or non-alcoholic mixer to about one inch below the top zip lock. If adding water, add a flavored powder. Seal and shake for 30 seconds or until dissolved. You'll get 200 ml of 10% alcohol by volume.

Mix in another container: Pour the Palcohol into the container. Mix like above to get 200 ml of 10% alcohol by volume.

The colder the water or non-alcoholic mixer, the longer it takes to dissolve. Once dissolved, add ice and enjoy!
